Page: 1 of 1

With a focus on MPS's core competencies, to provide the best value for our customers, MPS finds it necessary to discontinue a process which has previously allowed us to offer pre-assembled Guy Kits.

As of this notice MPS will discontinue taking new orders for Guy Kits. Open orders will be produced as scheduled. Affected catalog numbers are shown in Table 1. There is not a functional equivalent to replace the obsolete kits, but the components which made up the assemblies, other than the guy wire, can still be purchased from MacLean Power Systems under each component's individual catalog number.

MPS Part Number	MPS Catalog Number
F460102	U105415
F500016	UGWK50375EHSAS
F500017	UGWK50375EHSASG1
F500061	U105423
