

# UNIVERSAL GROUND CLAMP

**For Personal Protective Grounds**

### **Quick & Secure Installation**

Designed for easy attachment using standard shotgun sticks, reducing setup time for linemen.

### **Versatile Compatibility**

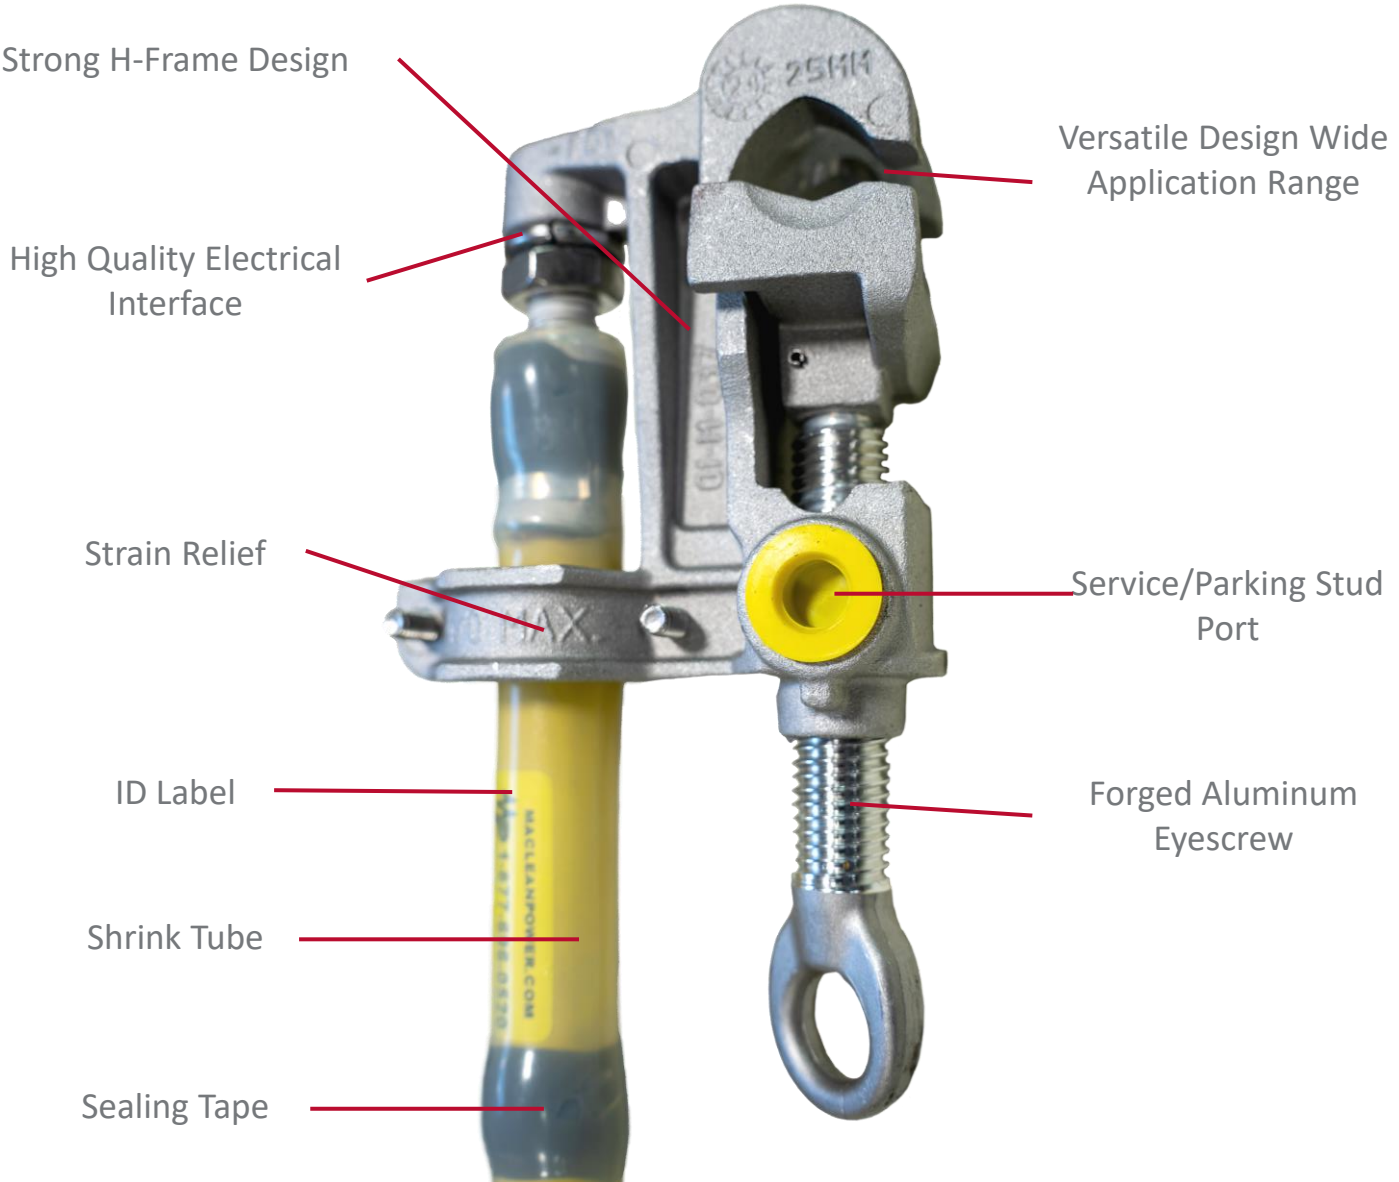

Works with multiple grounding configurations, including 5/8-11 and 3/4-10 UNC threaded stud ferrules.

### **No Exposed Threads**

Reduces contamination risks and ensures minimal maintenance in field conditions.

# FEATURES OF THE MACLEAN POWER GROUNDING SYSTEM

## Lightweight & Durable

Engineered for ergonomic handling while maintaining rugged durability for high-fault current applications.

## Stress Relief Design

Protects cable strands from wear and tear, extending cable life and improving reliability

## Lubrication Chamber

Internal lubrication chamber ensures smooth operation and minimizes maintenance needs

# DESIGN FEATURES: CLAMPS
